

Now You Can't Miss

**We're
extending
our **XT**
product line.
And we're
finding all
kinds of
good stuff.**

What else would you expect from the industry's leading innovator?

Schonstedt was the first to provide an RF link between transmitter and receiver—a major step forward in productivity.

In 2003 we introduced the **Schonstedt XT**, the magnetic locator that single-handedly changed the way surveyors work.

Now comes the **XTpc**—the first truly new advancement in pipe & cable locating in years.

Key Features
