

Glove Sizing Chart

This chart must be printed at 100% scaling.

Note: Check that the blue horizontal line below measures 80MM from arrow to arrow

Instructions

- Place your right hand palm down on the drawing with your fingers together. Your index finger should be aligned with the blue line (but not over it), your thumb crotch placed correspondingly to the portrayed hand.
- Size is indicated by the width of your hand. Read your size on the colour lines.

For a good fit - Relax you hand!

If you tense or squash your hand ...
...that is how the glove will feel...
...So relax to ensure a good fit.

Note: When printed this blue line should equal 80MM from arrow to arrow. If not your printer settings need adjusting.
